

For two staring eyes...

Parity...

Even God is with you
He has given you everything
Your face as fresh as morning dew
Eyes like a diamond ring
To me he is really harsh
Fetched me only two eyes!
You are too hot for them
All is true not a cluster of lies

The candles of my top-globe are off
He has given you sparkling wit
You have a glowing face well lit
To me the word just not fit.
